Name addition:

USGS name Unknown

Local name Patricia Creek

Species	Date(s) Observed	Spawning	Rearing	Migration
Pink Salmon	8/14/89	X		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Six adult pink salmon were seen in the creek. One was seen about 1000 meters
from the mouth. This stream is in Patricia Bight on the north side of Agattu
Island.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Brant Baxter
